Technical Data Sheet

ZIPTUBE light, grey, white and black

Please note that this data sheet applies exclusively to our products with light grey, white and black backing material. Due to the wide range of applications for our products, we recommend that users carry out their own tests.

Product and care information

Backing material:	**Polyester fabric, PVC-coated on both sides, dirt-repellent treatment and finish, 430 g/m², standard colour pearl grey**
Zipper:	Coil zipper, 4 mm, separable
	Plastic separating device
	Slider with automatic locking mechanism, stainless steel (nickel-free), colour-coated
	Fabric straps: Polyester 16 mm
Sewing thread:	**Polyester, size dtex 750(3)**

Care

Autoclave sterilisation not permitted

Surface disinfection:	**Surface disinfectants such as Propano® AF, Terralin® liquid, esteer® SEPT disinfectant wipes**
	Alcohol-free surface disinfectants are not recommended, as they may cause discolouration over time.
Washing:	Up to 60°C with commercially available mild detergents

ZIPTUBE makes every effort to manufacture its products to the highest quality standards and uses only high-quality materials. Please note, however, that these textile aids have a limited service life due to the demanding conditions of use, cleaning and disinfection.
